

SC Enrich IEP Quick Reference Guide for Summer School Participation

Summer school is a general education program and is not provided as part of the individualized education program for a student with a disability. However, students with disabilities, like any other students, may participate in summer school. Whether the student will participate in summer school is a decision to be made by the parent and student in consultation with the student's school. If a student is going to participate in summer school, it is important to document what accommodations and modifications, if any, will be provided for the student during summer school.

SC Enrich IEP includes a Summer School Participation form that should be used to document any accommodations and/or modifications that a student will be receiving during summer school. This form can be generated without conducting an IEP Team meeting and should be provided to the parent(s) and/or student and the summer school teacher(s).

In order to create a Summer School Participation Form, select Add Action on the Programs Tab. Then, select Summer School Participation from the list of Special Education Actions.

Add Special Education Action [X]

Program: Special Education

Action:

- Behavior Intervention Plan
- Child Outcomes Summary (COSF)
- Consent for Evaluation
- Consent for Initial Provision of Services
- Consent for Medicaid Reimbursement
